

MISSOURI MAPPERS ASSOCIATION

VOLUME 23, ISSUE 1

JANUARY 2007

LETTER FROM THE PRESIDENT, SHANE McDERMOTT

INSIDE THIS ISSUE:

ANNUAL MEETING	4
PUBLICATION COM	5
COMMITTEES	6
AWARDS	13
MEMBER LIST	14

Well, 2007 is upon us, and already I am half way through my term as President of the Missouri Mappers Association. It sure seems like time has flown by.

There are a few things that I have really wanted to do while serving as President, and one of them I have fallen short. I was hoping to get more people involved with the committees this year, but we are still having a very low response to this. The committee list is posted on page 6, please take a look at it. If you signed up to serve on a committee, please contact the chair and get more involved. We really need to support of our membership, and the committee members to make this work. I personally appreciate all of the hard work and dedication that the committees put in over the course of a year. I have served on

the Publication Committee for almost 4 years now, so I know it takes time and effort, but it is worth it.

One more item I am trying to work on is increased communication between the Board Members. We are considering using Instant Messaging software to keep in touch more often. Of course there are always IT issues involved, but I'll try not to let that deter us. I would encourage Committee's to do the same. Its very simple to initiate, and makes communication a breeze!

Plans for the Annual Meeting have been underway for quite some time. I don't want to spoil any of Katie's announcements (she has put way too much effort into this for me to take any of the credit), but we are

going to have a great time at the Lake once again. Make sure to make your hotel reservations early!

We did not have a Board Meeting in October because there were too many people that could not attend. However we did meet the first Friday of January. And for all of the bad weather, we really had a great turnout. We got a lot accomplished regarding the Annual Meeting, our Lobbyist, and a few items on the website. I believe we had a productive meeting. All are welcome to attend the Board Meetings, there is information on the website if you are interested.

That's all for now. Stay out of the cold!

Shane McDermott

President

CENTRAL EAST CHAPTER NEWS

January 5, 2007

The Central East Chapter of MMA met on Tuesday, November 7, 2006. We toured Sanborn, a Photogrammetric Mapping Service Company located in Chesterfield Missouri. We were given an explanation of the entire aerial photography process. After the tour we had a brief business meeting followed by a lunch that was catered by Alice Lee and Belinka Novotny-Held.

We will meet this spring for our annual picnic in Jefferson County. Our guest speaker, a local real estate attorney, will discuss "land sale" procedures.

If you would like to be included in our chapter mailing list please, send your name, address, phone, and e-mail address to bh@jcao.org.

GIS For a Better World

ESRI has been the world leader in geographic information system (GIS) software for over 30 years. ESRI offers innovative solutions that will help you create, visualize, analyze, and present information better and more clearly. Organizations around the world, as well as local, state, and federal government agencies, use ESRI GIS software to make smart and timely decisions. ESRI offers GIS solutions to help you unlock the spatial component of your valuable data.

Find out how GIS can help your organization.

Your **COMPLETE** Source for Mapping/GIS

GeoXT Handheld

THE TOTAL GPS PLATFORM FOR ALL YOUR GIS FIELD REQUIREMENTS

The GeoXT™ handheld, from Trimble's GeoExplorer® series, is the essential tool for maintaining your GIS. A high performance, submeter GPS receiver combined with a rugged handheld computer, the GeoXT handheld is ideal for use by utility companies, local government organizations, federal agencies, or anyone managing assets or mapping critical infrastructure who needs accurate data to do the job right—the first time.

Pathfinder Pro Series

HIGH PERFORMANCE INTEGRATED GPS RECEIVER FOR SUBFOOT ACCURACY

The GPS Pathfinder® ProXH™ receiver introduces a new era in GPS for GIS data collection. A GPS receiver, antenna, and all-day battery in one, the ProXH receiver delivers subfoot (30 cm) accuracy with Trimble's revolutionary H-Star™ technology.

Don't be fooled by its rugged good looks—the ProXH receiver is quite simply the most sophisticated high performance GPS receiver on the market.

AWARDS COMMITTEE REPORT

01-05-2007

The awards committee is currently seeking nominations from the executive committee for the fireball award. Please submit your nominations to Linda Crane. A Mapper of the Year and a Boss of the Year applications will be sent to the publication committee for the next newsletter. Please recommend any additional awards that you would like the committee to present. Any suggestions or changes to make this a more rewarding year for the membership would be appreciated.

Respectfully submitted,

Belinka Novotny-Held

Linda Crane, Awards Committee Chair

Oklahoma Highway Patrol Story

In most of the United States, there is a policy of checking on any stalled vehicle on the highway when the temperatures drop down to single digits or below. About 3:00 AM one very cold morning, Trooper Allan Nixon (Oklahoma Highway Patrol) responded to a call about a car that was off the shoulder of the road outside Shattuck, Oklahoma (western part of the state). He located the car which was badly stuck in deep snow with the engine still running. Pulling in behind the car with his emergency lights on, the trooper walked to the driver's door to find an older man passed out behind the wheel with a nearly empty vodka bottle on the seat beside him.

The driver came awake when the trooper tapped on the window. Seeing the rotating lights in his rearview mirror, and the state trooper standing next to his car, the man panicked. He jerked the gearshift into 'Drive' and hit the gas pedal. The car's speedometer was showing 20, 30, 40 and then **50 mph**, but it was still stuck in the snow, wheels spinning. Here's where it get good.

Trooper Nixon, having a sense of humor, began running in place next to the speeding, but still stationary car. The driver was totally freaked out, thinking the trooper was actually keeping up with him. This went on for about 30 seconds; then, the trooper yelled at the man to "**Pull over!**" The man obeyed, turned his wheel and cut off the engine. Needless to say, the man from Dumas, Texas was arrested, and is probably still shaking his head over the state trooper in Oklahoma who could run 50 miles per hour.

Who says state troopers don't have a sense of humor?

When it comes to your GIS, don't settle for second best:

get the
mapping expertise you need and
the **GIS technology** you want,
all rolled into one - ***with Sidwell!***

It seems like a lot of consultants these days are willing to make a lot of claims. "We're the most cost effective solution!" "We can build a GIS just like Sidwell's!" When it comes to your GIS, you need a company that has the experience and integrity to deliver as promised. **Sidwell is that company!** Only Sidwell can give you the key elements needed for a successful GIS: a depth of mapping experience combined with a dedication to technology that is second to none. Our history of mapping and land records expertise is unparalleled, and we continue to set standards in the GIS industry for client service and technology innovations like our Parcel Builder™ software.

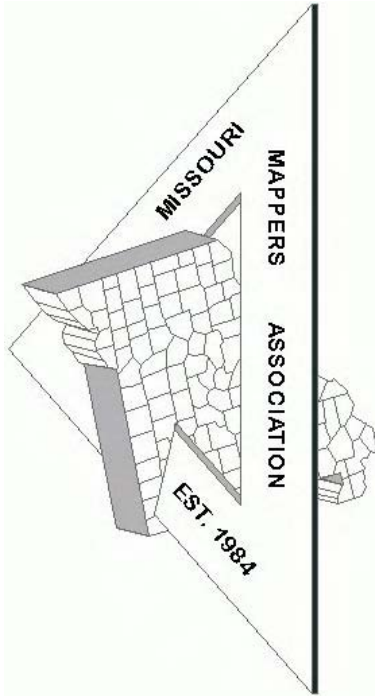

For more information on how you can benefit from our unique blend of cadastral mapping expertise and GIS technology, contact us today!
