MISSOURI MAPPERS ASSOCIATION

Letter from the President

If you didn't come to the 2003 Missouri Mappers Conference, you really missed an exciting AND educational opportunity. You'll have the chance to read more about it in this issue of the newsletter but I wanted to share with you that I thought it was the best one I've attended since 1999. The change in location was a hit, so we've already made reservations for next years meeting to be held at the Holiday Inn Sun-Spree at Lake Ozark on August 4-6, 2004. In the next newsletter, we'll publish the results of the 2003 conference evaluations. Thank you to everyone who took the time to fill one out. It's feedback that really helps us plan a successful conference.

I'd like to thank last years board members for nominating me to be your leader for the next year. I will strive to carry out the work of the membership. With that in mind, I encourage you to contact me and give me some feedback about what you want to see in the next year for MMA. I can be reached at work 417-831-8430, home 417-788-8841

or by email
grgpetersn@sbcglobal.net.

Let's welcome new board member and the 2004 Annual Meeting Chair, Stephen Daw who is the GIS Director for Shafer, Kline & Warren. We're excited to have him on board. He was recently on the Mid America GIS Consortium conference committee, so he has lots experience putting together educational meetings.

We're going to stick to the recent trend of three board meetings during the year, and we'll see if we can accomplish everything during those times. The schedule as it stands at the moment is October 3, 2003, March 5, 2004, and June 4, 2004 at the Phelps County Courthouse in Rolla. Directions are posted on the website

www.missourimappers.org or contact our Secretary, Richard Brown at 417-831-8577. We will get started at 10am in the Multi-purpose room. All members and committee chairs (or representatives) are invited, and ENCOURAGED to participate. Please send any committee reports or business items to me at least three

days in advance so I can get them on the agenda.

Take a look at the enclosed committee list and you will see several new names. You might notice we've got a couple of committees with co-chairs. If you've ever served on a committee, you know there are usually one or two people who do all the work while there are others who sign up then don't participate. Then there are some committees that require a lot of work to get anything accomplished, like putting on the annual meeting or workshops, etc. It's best when one or two people don't have to do the work of ten people. With co-chairs they can each work with the committee members to encourage everyone to participate more fully.

We're going to see some new things coming from MMA and I am hopeful that it increases our membership numbers. This organization will thrive and grow if we want it to and if we are willing to do the work required. If we're not willing to do anything different or roll up our sleeves to get things accomplished, then it won't.

INSIDE THIS ISSUE:

Letter from President	1
Annual Meeting Info	2
GIS Day 2003	2
MMA Golf Tourney	3
Committee List	5
Exec. Committee Info	5
Legislative Update	8
Membership Listing	10

I see many opportunities to cultivate the previous years of hard work the membership has invested into this organization. It's a solid foundation that provides a platform for us to continue to build on. Some of the things I'll ask the membership to consider this year is updating the by-laws, creating mission and vision statements and outlining a long range plan of goals to work toward. With decreasing budgets, we are going to have to compete with travel and training dollars more each year. If MMA is viewed as providing value to our employers, then it will be easier for us to justify our participation in workshops or the annual meeting. I look forward to serving you during the year of our 20th Anniversary.

Respectfully submitted,
Jennifer Peterson

What is the Missouri Mappers Association?

The Missouri Mappers Association is a nonprofit organization. Its purpose is to bring together those persons concerned with property mapping in state and local governments and private industry, to create a framework in which we:

- Cooperate in the investigation, study, discussion, and recommendation of improvements in property mapping and land record management.
- Promote the interchange of ideas and experiences.
- Improve the practice of property mapping and knowledge through education and training.
- Support legislation beneficial to property mappers and land record management.

MMA Conference Golf Tournament Results - by Jim Kyle

The MMA 3rd Annual Golf Tournament was held at the Bear Creek Valley Golf Course with 10 teams and 40 players turning participating. The weather was great and everybody had a great time. I want to personally thank all of the companies that donated prizes this year, without you we wouldn't have been able to award prizes. I also want to thank everybody that played this year, we had a great turnout. Maybe next year we will have even more teams participate. We had winners for A flight, B flight, 2 closest to the hold, long drive and longest putt. Here are this years winners:

A flight: Larry Schall, Mark Allen, Tom Sanders
 & Jim Angerer

B flight: Walter Ertz, Rodney Cope, Scott Shipman
 & Rick Hanamm

Longest Drive:	Jim Kyle
Closest to Hole #2:	Robert Harley
Closest to Hole #16:	Jim Angerer
Longest Putt:	Roger Arnzen

Make Plans for next year. I believe we will be back at Lake of the Ozarks and we will likely play Bear Creek Valley again. We had a great turnout this year with the 12 Noon starting time and will likely start at the same time again next year.

Executive Committee and Board Communications

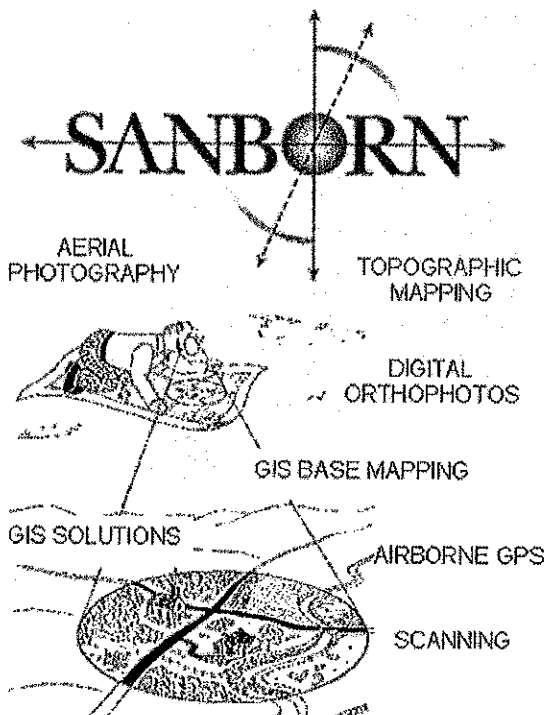

When I first got involved with MMA, I often wondered how people knew what was going on with the organization if they didn't attend the board meetings and something wasn't in the newsletter.

It has recently become apparent that there have been times when Executive committee decisions weren't properly communicated to the membership. In an effort to change that, I've asked Shane McDermott, our new MMA News Editor to set aside space in each

newsletter so we can better keep you informed. As always, we welcome submissions, questions to be answered in the newsletter or interesting pieces of information to share. In the next issue we will publish some specific things we address at the next board meeting.

Local News

LOCAL CORPORATION AWARDED USDA_CON- TRACT

St. Louis, Missouri — Surdex Corporation announced it has been awarded a \$2.7 million contract by the United States Department of Agriculture, Farm Services Agency, Aerial Photography Field Office for the 2003 National Agriculture Imagery Program (NAIP).

The project entails the acquisition of 1:40,000 scale color or color infrared aerial photography for the states of Missouri, Oklahoma and Kansas during the summer of 2003. Surdex will produce nearly 16,000 1 or 2-meter resolution digital orthophotos for the 220,000 square miles of coverage for a fall delivery.

Surdex's teammates include Keystone Aerial Services, M.J. Harden

and Associates, Tuck Engineering, Science Applications International Corporation (SAIC), Aerial Surveys International and John F. Kennefic Photogrammetric Consultants.

"This is one of the largest projects Surdex has undertaken and the award reflects the fact that our team has the experience, capability and capacity necessary to successfully accomplish the NAIP program objectives", said Ronald C. Hoffmann, president of Surdex Corporation.

"Surdex and our teammates will be utilizing common tools and processes to ensure consistency throughout the effort."

Due to the aggressive NAIP schedule requirements, the project requires tight coordination for the acquisition of aerial photography and also the processing of the data into the deliverable products. Aerial photography acquisition, image

scanning, data processing, and quality control functions are distributed amongst the team members. Many of the processes and software tools have been developed by the Surdex research and development staff and have been conveyed to teammates for use on the project. These tools include Surdex's Collaborative Project Management System (CPMS), a web-based project management and status reporting system used by both the team and the client.

Founded in 1954, Surdex Corporation offers photogrammetric and LIDAR mapping as well as GIS services to a broad range of commercial, county/municipal, federal and department of defense/defense mapping clientele.

announces the

MAGIC
midamerica gis symposium**MidAmerica GIS Symposium**

Hyatt Regency Crown Center ~ Kansas City, Missouri

April 18 - 22, 2004

Don't Miss This Educational Opportunity!*The MidAmerica GIS Symposium has become the Premier Regional GIS Event held in the Midwest because:*

- MAGIC is organized by GIS leaders in 7 states, focused on key issues of the day.
- MAGIC is a forum where you learn from people just like yourself from communities large and small.
- MAGIC attracts the top experts in many disciplines from around the country.
- MAGIC provides technical education for all levels with emphasis on sharing data and experience.

Educational curriculums that will be offered include: Modern Public Safety Information, Administration & Management, GIS Application Toolbox & New Technologies, Web GIS, Local Government, Applied GIS, Multi-Jurisdictional Collaboration, and Data Warehousing & Distribution.

There will be 150+ educational presentations, 22 half & full day Short Courses before and after the Symposium, and energy-charging keynote! This is your opportunity to get the best educational experience at the most affordable cost!

Full Registration: \$175
 Daily Registration: \$100
 Student Registration: \$50
 Exhibitor Space (8'x10'): \$750

Sign up for a digital copy of the newsletter

In an effort to conserve paper, postage and printing costs the MMA Newsletter Committee would like to offer the services of a digital version of the MMA

Newsletter. This is a voluntary program that would save a considerable amount of money for publication costs.

Those who sign up for the digital newsletter would receive the the upcoming issues of the newsletter by email

instead of the paper version. The format would be a Adobe PDF file, which can be easily viewed and printed out.

If you are interested in receiving the next MMA newsletter in digital format, please subscribe to this service by emailing Shane McDermott at shanem@psba.com and provide him with your full name and email address.

Try it out and see if you like it. If you are unhappy with the digital version and would like to return to receiving it by regular version, simply send Shane McDermott an email requesting to be removed from the list and continue to receive the newsletter in the original paper format.

With funding and budgets as tight as they are, we really appreciate your participation in this effort.

Thank you!

MMA Newsletter Staff

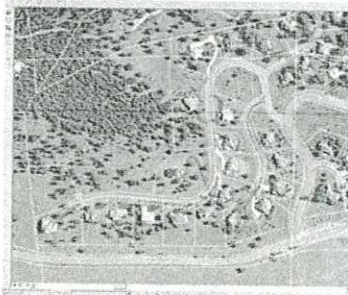

"This is not rubber sheeting!"

**"This is truly a radical technological improvement.
Pixxures' LineWorks is undistorted rectification."**

Dave Gallaher, IT Development Director
For Jefferson County, Colorado

Before

After

Most GIS users will face this problem sooner or later - vector data that doesn't align with new imagery. What good is great data if it doesn't work the way you need it?

Introducing Pixxures' LineWorks - a rapid and economical alignment service that ends the frustration of trying glean critical information from datasets that don't align properly. Pixxures' LineWorks is a service that allows your datasets to stay as accurate and up-to-date as the best dataset you own. By aligning your Planimetrics to your orthophotos, or aligning any of your vector data to your most accurate dataset, your GIS becomes more accurate, reliable, credible, and ...frankly...usable.

Multiple data layers. Annotations. It all can be aligned. Affordably.

"Pixxures' LineWorks preserves the spatial integrity and characteristics of your data - including annotation - while allowing vector data to be integrated from disparate sources."

- Dave Gallaher.

Too good to be true? Call us. We'll show you. 1-800-659-7947
