SPEAKERS

Chris Dunn is an Explosive Ordnance Disposal (EOD) Gulf War combat veteran, business owner, attorney, and expert geospatial witness. He holds a Juris Doctor from the University of Missouri – School of Law, Columbia as well as a Masters and Bachelor's degrees in geography from Kansas State University. His firm GeoVelo, LLC, uses Geographic Information Systems (GIS) and 3-D modeling software to map and documenting complex, long-standing, property boundary conflicts and crime scenes. He is a father, grandfather, member of the Missouri Bar, Eagle Scout, has won awards for his urban planning, filmmaking, and pro-bono legal work.

Drew Fioranelli, GISP is a career GIS professional and thought leader supporting local government geospatial efforts for over 15 years. In his current role as a Business Development Manager for Michael Baker International's public safety team, DATAMARK, Drew provides solutions and support for GIS and public safety professionals transitioning to Next Generation 9-1-1. He previously served as the GIS Director for Fauquier County, VA, supporting geospatial efforts within the county and implementing emerging geospatial technologies to better serve the community.

Chase Fisher is a Solution Engineer for Esri out of the St Charles, Missouri regional office. He is originally from the Southwest Missouri Area, where he spent 14 years in city and county government GIS coordination. He is also a FAA certified Remote Pilot. Now as a Solution Engineer Chase currently supports the local government team, with a focus on 3D GIS, Web GIS, Mobile Applications / Workflows, & Drone technologies

Brent A. Jones. PE. PLS

Global Manager, Cadastre/Land Records with Esri for over 15 years, Brent Jones oversees Esri's worldwide strategic planning, business development, and marketing activities for land records, cadastral, surveying, and land administration. As a recognized innovator, Jones specializes in modernizing existing land administration systems and designing new GIS-based cadastral management systems for small and large governments globally. He is a licensed professional land surveyor and engineer, past board member and president-elect of URISA, recipient of the 2019 URISA leadership award, past president of GITA (Geospatial Information and Technology Association) and a current member of the UNGGIM-LAS United Nations Committee of Experts on Geospatial Information Management sitting on the Expert Group on Land Administration and Management. Established in 1969, Esri creates systems that drive all components of land and cadastral administration, including addressing, registration, taxation/valuation, planning, and development.
