

Missouri Mappers Association

42nd Annual Conference

August 4th - 7th, 2026

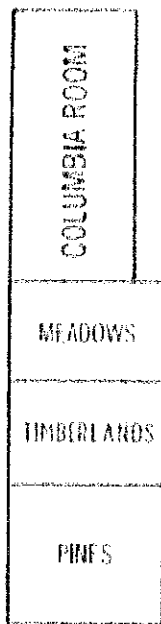

Get Your Kicks Mapping

Route 66

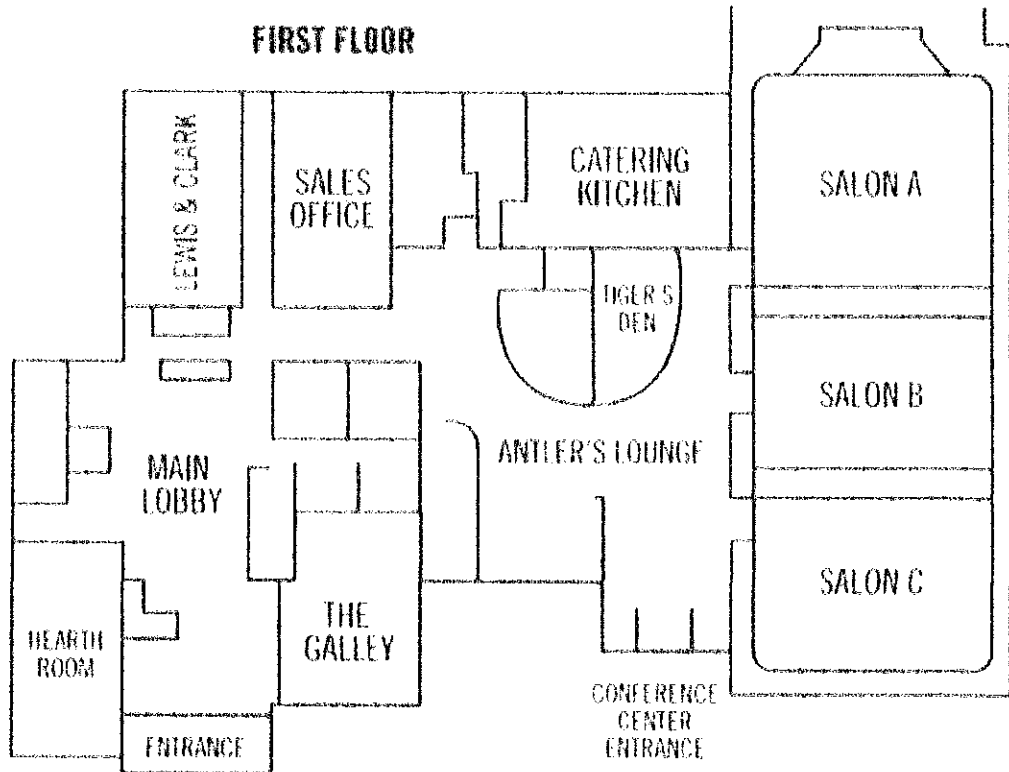

Stoney Creek Hotel & Conference Center

Columbia, MO

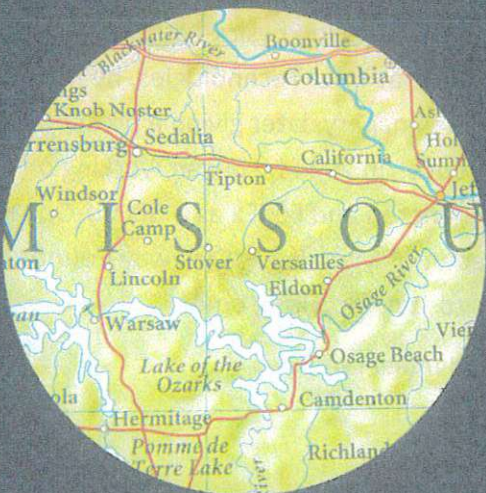

SECOND FLOOR

Bartlett & West

Forward, together

With 75 years of institutional experience, we're proud to partner with the Missouri Mappers Association.

Bartlett & West partners with businesses and communities to build smarter, stronger, more connected infrastructure. With industry knowledge and creative approaches, we engineer better tomorrows.

BartlettWest.com

PRESENTER INTRODUCTIONS

Presenter(s): Kathleen Seale

Organization: State Historical Society of Missouri

About Presenter(s): Katie Seale is the regional director of the Rolla and Springfield Research Centers of the State Historical Society of Missouri. She has a master's degree in public history. She started at SHSMO in 2016 and has been the Route 66 lead since 2022; collaborating with Research Route 66, the Road Ahead Partnership, the National Trust for Historic Places, and Google Arts and Culture to commemorate the Centennial of the highway.

Presenter(s): Megan Gross

Organization: City of Columbia Visitor's Center

Presentation Summary: What Columbia has to offer.

Presenter(s): Tyler Kling

Organization: Callaway County Director of Mapping

About Presenter(s): Tyler graduated in 2020 with his Bachelor of Science in Physics-Astronomy and briefly worked at Tyler Technologies as an Appraisal Lister. During his time at Tyler Technologies, he learned how to update parcel data and locate features using aerial and satellite imagery, later giving a presentation on the benefits of satellite and aerial imagery at a company conference. In 2024 he began working on his Master of Science in GIS. During that time, he worked for both Ameren and FedEx as a GIS Co-Op. He finished grad school in December of 2025 and became the Director of Mapping at Callaway County Assessor's Office, where he has been working since (and hopes to stay for a long time).

Presentation Summary: Gathering Parcel Photos using Oriented Imagery

Presenter(s): Marti Suiter

Organization: PMM

About Presenter(s): Marti Suiter began her mapping career in July of 1991 in Hickory County. Six years later she passed the PMM exam and was awarded the designation of Professional Missouri Mapper. Thirty-five years after her start, she is still working as a mapper, but now she is in St. Clair County. Marti would love to see other Mappers desire to have the Professional designation.

Presentation Summary: She and the other current PMMs are here to give you information and answer questions.

Presenter(s): Jacqueline Walters and Jess Moss

Organization: Land Survey Program

About Presenter(s): Jacque Walters is the Repository Manager for the Missouri Department of Agriculture's Weights, Measures, and Consumer Protection/Land Survey Program. After working at the HD Lee Factory in Lebanon, MO for over 20 years, she attended Rolla Technical Institute (RTI), studying drafting and design. While attending classes at RTI, she took an internship position for the Land Survey Program Repository Section. After graduating in May 2005, she continued her education at East Central College graduating in December 2005 with an Associate Degree in Drafting and Design. Jacque then furthered her education by taking surveying classes from State Technical College of Missouri and the University of Wyoming. In 2021, she assumed duties as the Repository Manager. Jacque has started assisting in ArcGIS.

Jess Moss is the Geodetic Section Chief at the Missouri Department of Agriculture's Land Survey Program. He earned a Bachelor of Science degree in Civil Engineering from Missouri Science and Technology. He stayed at Missouri S&T until 2003, studying Geotechnical Engineering. Jess has 22 years of surveying experience in the private sector and State government. In 2004 he began working at Cochran Engineering an Surveying in Union, Missouri. In May of 2008 he began working for Archer-Elgin Surveying and Engineering (a/k/a Elgin Surveying and Engineering) out of Rolla, Missouri. He became a licensed professional surveyor in 2008. During this time, he was involved in every facet of surveying including estimating, research, fieldwork, and deliverables for cadastral, topographic, control and construction stakeout surveys. In August of 2015 Jess accepted a position as a Project Surveyor for the Land Survey Program. In 2027, he became the Geodetic Coordinator for the State of Missouri. Jess is currently a member of the Missouri Society of Professional Surveyors.

Presentation Summary: Jacqueline will be going over what we do in the Land Survey Program. Jess will be going over the Low Distortion Projection and the new 2022 Datum.

Presenter(s): Tom Vought & Katilin Hughes

Organization: Missouri Spatial Data Information Service (MSDIS)

About Presenter(s): Tom Vought is the Director and Operations Manager of the Missouri Spatial Data Information Service (MSDIS) at the University of Missouri. Since 2018, he has been responsible for determining the long-term goals of the clearinghouse, shaping best practices for data sharing, engaging with stakeholders and data partners, and representing both MSDIS and Missouri at state, regional, and national geospatial advocacy events. Tom is also responsible for the design, installation, and maintenance of the MSDIS server architecture, ensuring that Missouri's spatial data, high resolution imagery, and LiDAR elevation data are readily available to the citizens of the Show Me State.

Katilin Hughes is the Outreach and Education Coordinator and LiDAR Manager at the Missouri Spatial Data Information Service (MSDIS) at the University of Missouri. She leads geospatial education and workforce development initiatives, designs and coordinates GIS training programs, and supports both statewide and national outreach efforts that promote the use of geographic information systems (GIS) and geospatial

technologies. Katilin also supports Missouri's LiDAR initiatives, helping facilitate the acquisition, distribution, and application of high-resolution elevation data for government agencies, researchers, educators, and industry partners.

Presentation Summary: The New and Improved Missouri Spatial Data Information Service. This talk will explore recent changes at MSDIS, including the rollout of new image servers, development of introductory GIS training workshops, and possible directions for future expansion.

Presenter(s): Jorge Lugo-Camacho

Organization: USDA Natural Resources Conservation Services

About Presenter(s): Jorge has been the Missouri State Soil Scientist with the United States Department of Agriculture, Natural Resources Conservation Service (NRCS), since November of 2011. He is currently stationed in Columbia, Missouri. He was born in Ponce, PR, and was raised in Almácigo Bajo ward in Yauco, PR. Jorge has been married to Beatriz E. Torres-Ordóñez for over 18 years. Beatriz is native to Cali, Colombia, South America. They both have two beautiful daughters - Salomé (15 years old) and Nathalie (13 years old) and a 27 year old son - Leonardo.

Jorge graduated in 1991 from the University of Puerto Rico - Mayagüez Campus, where he achieved the Luis de Celis Award. He has a Bachelor's Degree in agriculture science in Agronomy and Soils. In 2005 he earned a Master's Degree in Soil Science from the same institution.

Jorge began working with NRCS (formerly known as the Soil Conservation Service) as a Soil Scientist in Las Vegas, NV in 1991. He later was transferred to Columbus, TX as a Soil Scientist in 1993. In 1994, he was transferred to Bainbridge, GA, where he was responsible for the Decatur and Grady Counties soil survey. In 1995, he accepted a Soil Scientist position in Mayagüez, PR and in 1997 he was selected for a Soil Survey Project Leader position in the same location. In 2008 he was selected as the MLRA Team Leader in the same location. He achieved one of his career goals in 2008, the publication of his first soil survey as a main author (PR787-Soil Survey of San Germán Area, Puerto Rico).

He has served in seven international volunteer assignments; two in Nicaragua, Central America (2005-2006; Farmer to Farmer program), two in Guatemala, Central America (2009; University of PR-research study) (2022; International Programs Division-Foreign Agricultural Service), one in Colombia, South America (2017; Farmer to Farmer program), one in Dominican Republic, Central America (2019; Farmer to Farmer program) and one in Guyana, South America (2023; International Programs Division-Foreign Agricultural Service). Also, he served as Adjunct Professor at the University of Puerto Rico - Mayagüez Campus, Agronomy and Soil Science Department (2007-2008).

Presentation Summary: Land Capability classes in Missouri, history, and overview.

Presenter(s): Chris Dunn

Organization: GeoVelo, Geospatial Forensics

About Presenter(s): Chris Dunn is frequently called to serve as an expert witness in geospatial forensics. He holds a Juris Doctorate from the University of Missouri Columbia, School of Law, and both an MA and a BS in geography from Kansas State University. His firm, GeoVelo, LLC, used Geographic Information Systems (GIS), GNSS, LiDAR, UAVs, and 3-D modeling software to map, model, and document complex property boundary issues, archeological sites, and crime scenes. Several of his current cases have their origins in documents produced prior to Missouri's statehood. Chris is a US Army Explosive Ordnance Disposal (EOD) combat veteran.

Presentation Summary: *Zillow, Inc. v. County of Richland, South Carolina* - A First-Hand Account from an Expert Witness.

This presentation tells the story of *Zillow, Inc. v. County of Richland, South Carolina* through the eyes of the retained GIS/legal expert witness. At the crux of the case was Richland County's denial of an open-records request for GIS data it had sold to Zillow for years. We'll walk through the case background and general GIS data-sharing policy, then examine the County's six shifting justifications for denying Zillow's request. You'll then see the expert's five-step method for auditing a public body's own data footprint, along with candid excerpts from cross-examination of the County's Assessor and Deputy CIO that undercut the County's privacy and "no responsive records" defenses. The presentation closes by translating ten good-faith lessons from the trial into a practical, Missouri-specific framework tied to RSMo Chapter 610 and §67.1850, ending with a checklist attendees can apply to their own agencies.

Presenter(s): Chase Fisher

Organization: Zanevan Engineering

About Presenter(s): Chase Fisher is Director of Business Development and GIS Services at Zanevan Engineering, an Engineering - Land Surveying - Geospatial firm in Carthage, Missouri, and brings 21+ years' experience in GIS to the field. His career spans local and County Government GIS with the City of Carthage and Jasper County - including hands-on land records and parcel mapping - ownership of his own drone and GIS consultancy, and a tenure at ESRI, the world leader in GIS, where he led the Solution Engineering team for State and Local Government. That gives him a perspective few have - seeing how GIS is used in the field and behind the scenes of how the software and systems are engineered.

Presentation Summary: The parcel map, brought to life. What Web GIS & ArcGIS Online mean for the way you map, and how your County can put it to work.

Presenter(s): Jayln Singleton & Ashle Powell

Organization: SAM

About Presenter(s): Ashle has been with SAM for 1 year and 9 months and has 15 years of County mapping experience working for Scott's Bluff County, Nebraska.

Jalyn graduated with a degree in environmental geography & a GIS certificate from NWMSU and has been working at SAM for 2 years doing almost exclusively County mapping.

Presentation Summary: "Learn how ArcGIS Pro Parcel Fabric modernized parcel maintenance by combining parcel editing, survey records, topology validation, and historical tracking into a single authoritative ESRI-based land records system."

Presenter(s): Morgan Hurt

Organization: Boone County GIS Analyst 1

About Presenter(s): Morgan Hurt is a GIS Analyst 1 for the Boone County Government. There she works to maintain the County's spatial data, create online map viewers for internal and public use, and assist GIS users in all County departments.

Presentation summary: The Power of GIS

Presenter(s): Matthew Smith

Organization: Boone County GIS Manager

About Presenter(s): Matthew Smith has over 20 years of GIS professional experience in federal government, the private sector, and local government. He is currently the GIS Manager at Boone County Government, where he manages the deployment, architecture, and utilization of GIS software and data integration across all Boone County departments.

Presentation Summary: Architecture, Use, and Best Practices for GIS in Local Government

CONFERENCE SCHEDULE

(All classes will be in Salon A & Meals will be in Salon B)

Tuesday, August 4th

3:00 P.M. - 5:30 P.M.	Registration Open
5:30 P.M. - 7:00 P.M.	Welcome Reception & Geocaching

Wednesday, August 5th

7:00 A.M. - 8:30 A.M.	Registration Open
8:00 A.M. - 9:00 A.M.	Breakfast
9:00 A.M. - 9:15 A.M.	Columbia Visitor's Center - Megan Gross
9:15 A.M. - 10:00 A.M.	President's Welcome & Keynote Speaker Kathleen Seale, State Historical Society of Missouri
10:00 A.M. - 10:15 A.M.	Break
10:15 A.M. - 11:15 A.M.	Gathering Parcel Photos Using Oriented Imagery Tyler Kling, Callaway County
11:15 A.M. - 12:15 P.M.	Professional Missouri Mappers Q & A Marti Sulter, PMM, St. Clair County
12:15 P.M. - 1:15 P.M.	Lunch
1:15 P.M. - 2:00 P.M.	Land Survey Program & The Low Distortion Projection Jacqueline Walters & Jess Moss, State Land Survey Program
2:00 P.M. - 3:30 P.M.	The New & Improved Missouri Spatial Data Information Service (MSDIS) Tom Vought & Katilin Hughes, MSDIS
3:30 P.M. - 3:45 P.M.	Break
3:45 P.M. - 4:45 P.M.	Land Capability Classes in Missouri Jorge Lugo-Camacho, USDA Natural Resources Conservation Services
5:30 P.M. - 6:30 P.M.	Vendor Reception
6:30 P.M.	Dinner on your own

Thursday, August 6th

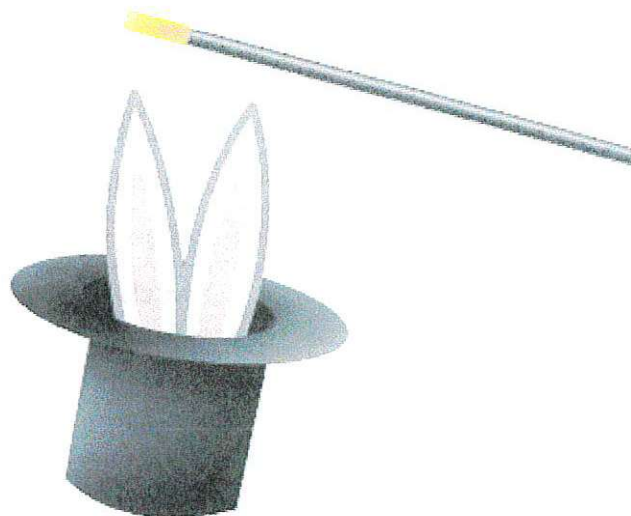

7:00 A.M. - 8:30 A.M.	Registration Open (if needed)
8:00 A.M. - 9:00 A.M.	Breakfast
9:00 A.M. - 10:00 A.M.	Zillow, Inc. v. County of Richland, South Carolina Chris Dunn, GeoVelo, Geospatial Forensics

CONFERENCE SCHEDULE

10:00 A.M. - 10:15 A.M.	Break
10:15 A.M. - 11:15 A.M.	The Parcel Map, Brought to Life: Web GIS & ArcGIS Online Chase Fisher, Zanevan Engineering
11:15 A.M. - 12:00 P.M.	Learn How ArcGIS Pro Parcel Fabric Modernizes Parcel Maintenance Jayln Singleton & Ashle Powell, SAM
12:00 P.M. - 1:30 P.M.	Lunch, Prize Drawings, Chapter Meetings
1:30 P.M. - 2:15 P.M.	Round Table Discussion
2:15 P.M. - 3:15 P.M.	The Power of GIS Morgan Hurt, Boone County
3:10 P.M. - 3:30 P.M.	Architecture, Use, & Best Practices for GIS in Local Government Matthew Smith, Boone County
6:00 P.M. - ???	Dinner & Comedy-Magic Hypnosis Show

Friday, August 8th

8:00 A.M. - 9:00 A.M.	Breakfast
9:00 A.M.	Annual Business Meeting Presentation of Awards, Election of Officers

2025 - 2026 MMA OFFICERS

PRESIDENT

Alice Lee

Jefferson County (retired)

committee. All members are welcome to serve!

Thank you for making SAM Missouri's leading GIS provider!

Dependable GIS Services for Counties

Mapping Made for All Departments

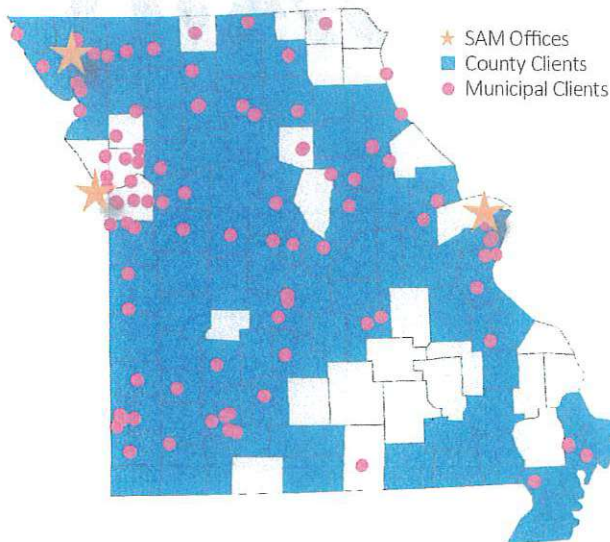

- Customized maps / reports
- Enhance communication among departments
- Improve efficiencies in planning

GIS Parcel Maintenance Services

- Skilled technicians manage GIS updates
- Cost-effective, contract-free maintenance plans
- Parcel change web portal for easy data sharing

Next Generation 9-1-1 Mapping

- Accurate 9-1-1 road & address mapping
- Field crews for address verification
- 9-1-1 map data maintenance

Countywide Parcel Development

- Reliable, research-based GIS programs
- Accurate base mapping & layer development
- CAMA system / data integration

Web-based and Mobile GIS

- Central location to edit & maintain parcel data
- Mobile and offline capabilities
- Public and / or private access to GIS data

Deploy Esri Enterprise & ArcGIS Online

- Customized HUB for centralized database
- AGOL web apps to support all departments
- Dashboards to visualize county data

Training & Technical Support

- Customer Service tailored to meet all needs
- GIS hardware / software install & setup
- Remote and onsite training / tech support

Parcel Fabric Migration

- Maintain Accurate, Legal Parcel Boundaries
- Esri COGO Deed Reader
- Property Tax Assessment & Public Land Records

ArcGIS Field Maps

- Conduct reports & manage permits
- Split-screen view of aerial maps & CAMA data
- View, edit, & maintain CAMA data on any device

Missouri Qualified Vendor

SAM is proud to announce its selection to the State of Missouri's Geographic Information System (GIS) Services Qualified Vendor List (QVL) in March 2026. This designation allows Missouri state agencies to efficiently access geospatial expertise and solutions from a pool of prequalified vendors offering a wide range of GIS services, including: Assessment and Recommendations, Business Continuity and Disaster Recovery, Esri Tools and Platform Training, Geospatial Mobile and Field Solutions, Business Systems Integration, System Upgrades and Migrations, Independent Validation and Verification (IV&V), and Indoor GIS.

Want to experience the SAM difference for yourself? Learn how we can put our resources to work for your next project.
